

Opserly — Construction Hub

Job costing on the project · Business Services industry module

Who it is for

General contractors and builders already on Business Services.
Construction Hub is an industry module, not a fifth product line.

What ships

Overview: contract, COs, retainage, Budget / Actual / Committed / Forecast.
Cost codes and phases (CSI-lite). SOW to project seeds contract and milestones.
Field: tasks, daily logs, RFIs, schedule %, subs, equipment, punch list.

Typical flow

Execute SOW, add to project, or enable the hub on an existing project.
Setup contract and retainage. Budget by cost code.
POs/subs commit; approved time and expenses actualize. Progress-bill the owner.
