

Opserly — Lite WMS & OMS

Inventory, pick/pack/ship, backorder ETAs · not a 3PL WMS

Lite WMS

Warehouse queue, pick waves, packing station.

Rate shopping, carrier labels, shipping exceptions.

Bins, putaway, multi-warehouse on-hand and low-stock alerts.

OMS-lite

One order record from portal checkout through ship.

Backorder promise / ETA on the line for the customer portal.

Partial ship: available now; remainder keeps the ETA.

Boundary

Not labor management, slotting optimization, or yard/3PL control tower.

Pro and Enterprise on Digital Commerce; Basic is catalog + portal orders.
